AGENDA

SECTION 5310 FUNDS

The Durham-Chapel Hill-Carrboro Metropolitan Planning Organization (DCHC MPO) receives around \$275,000 per year in 5310 funds. These funds are used for enhanced mobility of **seniors** and **individuals with disabilities**. Projects selected to receive these funds must be derived from a locally developed, **Coordinated Public Transit-Human Services Transportation Plan**, also known as a coordinated plan. Human services transportation that is provided by or on behalf of a human services agency for access to agency services or to meet basic, day-to-day mobility needs of these communities, are eligible to receive funds.

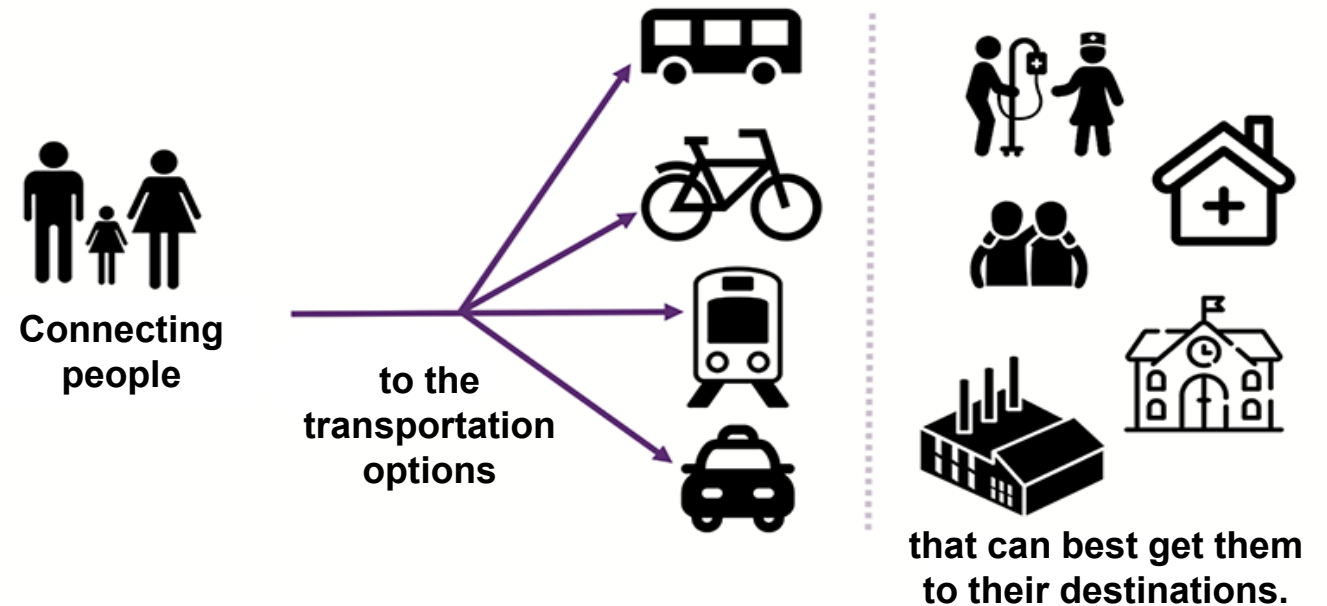

DEFINITIONS

Coordinated Plan
A locally developed, coordinated transportation plan that identifies the transportation needs of older adults (65+), individuals with disabilities, and those with low incomes, provides strategies for meeting these needs, and prioritizes services for funding and implementation.

Public Transportation
Regular, continuing shared-ride services that are open to the general public or a segment of the general public (excludes Amtrak, school buses, courtesy shuttles, & sightseeing buses)

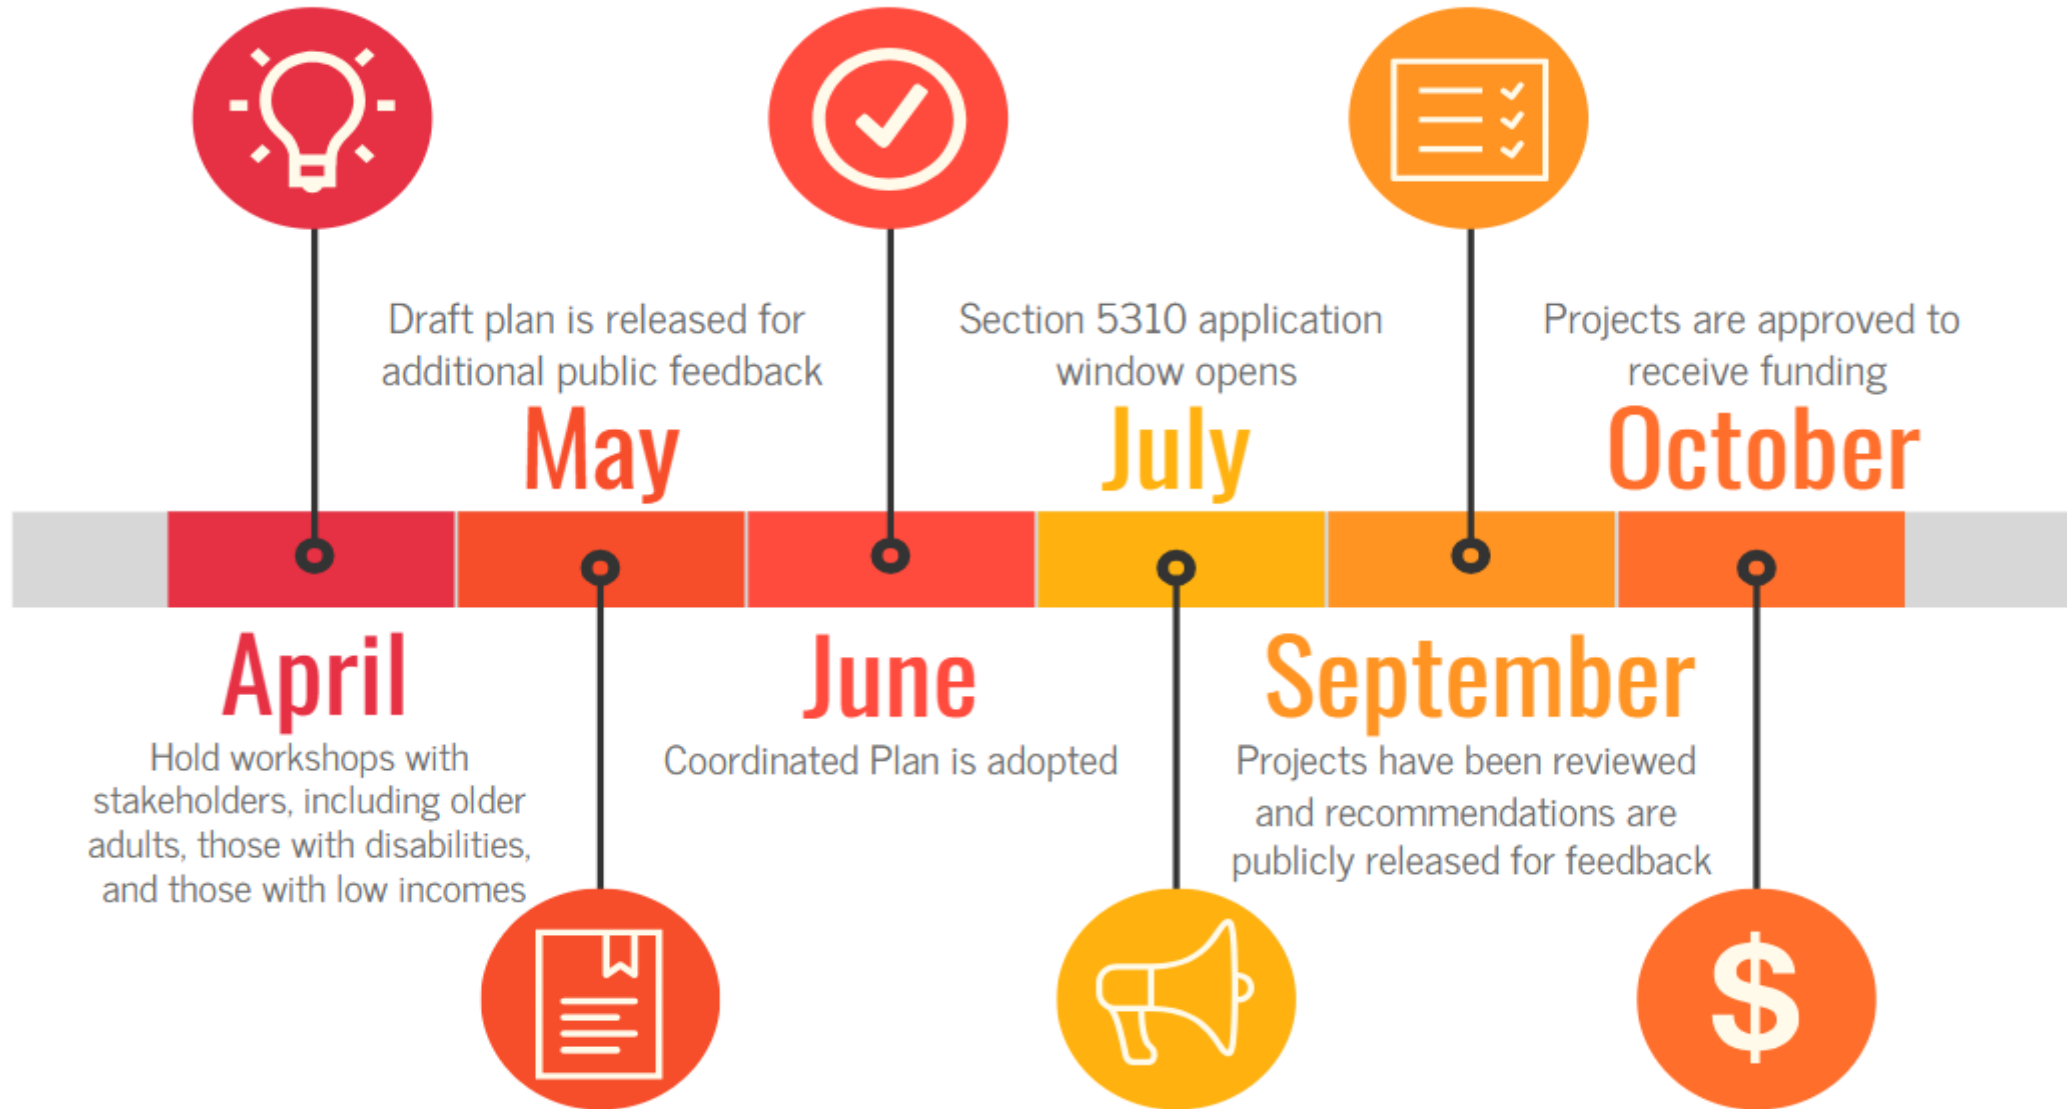

Recommendations

- Needs and gaps from last plan are still relevant
 - Coordination/Mobility Hub for Human Services and Public Transportation
 - Expanded Transportation Services
 - Expanded Education Services
 - Application Process Improvements (passengers applying for service)
 - Bus Stop Access Improvements
- Mobility management is needed across the region for better coordination of services, especially across county lines
