 101 approval timeline.

102 Damon Seils asked if the 2020 U.S. Census data will affect MPO member's local matches within
103 the FY24 UPWP, or future UPWPs. Doug Plachcinski replied that factors that could impact the local
104 match include if DCHC MPO adds new members based on the new boundaries identified by the 2020
105 U.S. Census data, as well as how DCHC MPO's budget and financial obligations are affected as a part of
106 its transitions to Triangle J Council of Governments (TJCOG) as its new Lead Planning Agency (LPA).

112 jurisdictions, their associated funding sources, and the total amount of funding recommended by MPO
113 staff. Kelly Fomenko stated that the City of Durham's funding recommendation is high because they
114 have existing projects, which are a priority for the MPO.

115 Damon Seils asked why the amount recommended in the FY24 Call for Projects does not equal
116 the amount available for jurisdictions. Kelly Fomenko replied that this call for projects does not require
117 members to request all funding available to them at this time, and that the funds could be obligated in
118 the future.

119 Leonardo Williams made a motion to release the proposed projects to be funded through the
120 FY24 Call for Projects for a 21-day public comment period. Wendy Jacobs seconded the motion. The

126 U-5304F: US 15-501, and U-5774F: NC 54), and three projects being considered for swapping out (U-

127 6021: Fayetteville, U-5720B: US 70, and U-5774B: NC 54). Kelly Fomenko stated that these projects
128 within the swap process adhere to the requirement that the combined budget of projects being
129 swapped into the STIP must be less than 110% of the cost of projects being swapped out.

130 Wendy Jacobs asked what the process will be for reapplying for funding for U-5720B: US 70.

131 Andy Henry stated that if the project changes significantly, it will need to go through the SPOT process
132 again for new scoring. Tracy Parrot confirmed Andy Henry's comments.

133 Damon Seils made a motion to release the proposed draft FY2024-2033 swap for a 21-day public
134 comment period. Karen Howard seconded the motion. The motion passed unanimously.

137 Doug Plachcinski shared that the DCHC MPO Board requested staff propose legislative priorities
138 for the 2023 North Carolina Legislative Session based on previous joint policy statements developed
139 with the Capital Area Metropolitan Planning Organization (CAMPO) in 2021. Doug Plachcinski shared
140 the legislative priorities for consideration.

141 Michael Parker suggested prioritizing and therefore condensing the list of priorities, and Karen

148 **INFORMATION ITEMS:**

149 **15. US 70 East Corridor Study**

150 **Andy Henry, LPA Staff**

151 **Aidil Ortiz, Aidilisms**

152 Andy Henry shared that the MPO is conducting a corridor study of the segment of US 70 from I-
153 885 to the future Northern Durham Parkway, and that it is working with consultant STV to look at what
154 impacts a boulevard would have along the corridor. Andy Henry stated that the study began in August
155 2022 and has included a review of current conditions, demographics and similar corridors; public
156 engagement activities; and alternatives. Andy Henry stated that the presentation today entails the
157 public engagement activities that will be presented by Aidil Ortiz from the study's subconsultant,
158 Aidilisms.

159 Aidil Ortiz stated that she has been leading the public engagement efforts for this study. Aidil
160 Ortiz shared that feedback was gathered from both online and emailed surveys, which was open from
161 November 2022 to January 2023 and garnered 396 surveys. Aidil Ortiz said that she held both in-person
162 and online community meetings and two online meetings. Aidil Ortiz shared the feedback received from
163 these public engagement activities. Andy Henry said that the next steps in this process is for the Core
164 Technical Team (CTT) to develop alternatives which will then be presented to the public for feedback,
165 culminating in a final plan expected to be completed in Summer 2023.

166 Camille Berry asked what strategies will be used to increase the number of responses from
167 diverse populations. Aidil Ortiz shared that the strategy thus far has included contacting businesses
168 along the corridor, though many were not interested in providing input; and that signs were displayed
169 in the neighborhoods along the corridor. Aidil Ortiz stated that the timing of the first round of public
170 engagement efforts coincided with the holidays, which may have impacted the response. Aidil Ortiz
171 added that most responses came from predominantly white neighborhoods who are organized with
172 voicing their feedback. Anne Lemont-Redmond added that the Leesville Coalition has been active and
173 vocal based on their concerns and needs, which might have impacted the demographics that are seen
174 in the first round of public engagement activities. Camille Berry suggested working with neighborhood
175 ambassadors who are trusted to pass along feedback opportunities.

176 Leonardo Williams asked what weight the survey will have in the final decision, and Anne
177 Lemont-Redmond replied that equity is a critical component of the public engagement process, as well
178 as how to move forward. Karen Howard said that it is the responsibility of the Board to show that
179 under-represented communities matter in decision making. Wendy Jacobs suggested explaining what
180 multi-modal transportation means, and why the corridor study began, as part of future public
181 engagement.
