**To:** DCHC Technical Committee  
**From:** Mo Devlin, Staff Working Group Administrator  
**Date:** May 23, 2018  
**Subject:** Triangle Tax District/Special Tax District Quarterly Reporting, as of March 31, 2018

The Triangle Tax District and the Durham and Orange Special Tax District record the resources and uses of funds for the Durham and Orange Counties Transit Plans. The Plans are a long-range, regional vision, that allocate annual funding for transit service enhancements, including additional hours of service, improved access to transit facilities, and support, through local match, for large capital projects such as the North South Bus Rapid Transit Project, the Durham-Orange Light Rail Transit (D-O LRT), and the Durham-Wake Commuter Rail. The Transit Plans guide the transit improvements and the use of the dedicated revenue streams generated through sales tax, vehicle registration fees, and vehicle rental tax. These investments promote transit, walking, and bicycling within the counties and their municipalities while protecting our sensitive natural environment (Orange County Transit Plan, Durham County Transit Plan). The funds are managed by the Research Triangle Regional Public Transportation Authority, or GoTriangle. As the tax administrator, GoTriangle collects revenues and manages expenditures, reporting this activity in their financial activity, but in separate funds, the Triangle Tax District Fund and the Durham/Orange Special Tax District Fund.

The Triangle Tax District, formerly the Western Triangle Tax District, includes revenues from the additional one-half cent sales tax (Article 43) approved by Durham County voters in 2011 and Orange County voters in 2012, a \$7 per vehicle registration fee, collected by North Carolina Department of Motor Vehicles, and the Districts' share of the vehicle rental taxes that are received by GoTriangle's General Fund, currently 16 percent. Sales tax and vehicle rental tax funds are transferred to GoTriangle monthly or quarterly; vehicle registration tax collected are submitted by the private rental companies on a frequency determined by the rental company's annual rental volume. The Durham/Orange Special Tax District Fund is legislated separately to account for funds from the additional \$3 Vehicle Registration Fee for GoTriangle. A vehicle registration fee of \$5 per vehicle in Durham, Orange, and Wake counties has been collected by GoTriangle since 1991, and is used to fund general operations for GoTriangle. The collection of the additional \$3 (for a total fee of \$8) began in 2014, generating approximately \$1 million per year. See Table 1 for more information.

The Triangle Tax District Fund and the Special Tax District Fund combine the activities of both counties, but Orange and Durham's activities are tracked separately within each Fund.

**Memorandum**

This supports each County's Transit Plans, and their separate funding sources, and expenditure levels by projects, as determined in the annual Work Plans.

The 2017 Transit Plans replaced and made several updates to the counties' Bus and Rail Investment Plans (BRIPs), which were adopted in 2011. One commitment in the Transit Plans is to provide quarterly reporting, including the D-O LRT project, as well as other major activities. The following discussion provides high level information about Fiscal Year 2018 (FY 2018) activities in the Triangle Tax District and the Durham/Orange Special Tax District (the Tax Districts). More detailed information can be found in Attachment A.

**Budgeting:** Tax District annual expenditures are approved in the GoTriangle budget. The Tax District had an approved budget on March 31, 2018 of \$103,455,947 (see Table 2 below). Any expenditure that is in excess of GoTriangle approved amounts require a budget amendment. In the Tax Districts, the Staff Working Groups (SWG) for each county must review and approve the item necessitating the amendment. Currently, expenditures for Chapel Hill Transit, Orange Public Transit and GoTriangle – Orange County exceed the approved budget amounts, and GoTriangle Board will therefore need to approve an amendment for the FY 2018 Fiscal Year.

**Memorandum****Revenues:**

In FY 2018, the Tax Districts' combined revenues are budgeted at \$44.8 million. The budgeted amounts are established by Transit Plans' cash flow (Schedule A). These revenues were modeled during the development of the 2017 Transit Plans by Moody's Investment, and each revenue source is projected following conservative growth metrics established in the Plans. The Sales Tax FY 2018 revenues are budgeted at \$35.6 million, representing 79.3% of the Tax Districts' total. Through March 31<sup>st</sup>, GoTriangle has received or been notified of \$26.3 million in sales tax, approximately 74% of the annual budget (to 75% of the year). As of March 31<sup>st</sup>, the Vehicle Rental Tax is slightly exceeding budgeted estimates, at 75.2% of the year collected. Both vehicle registration taxes, which combined are 8% of the budgeted revenues, are underperforming, with only 69.3% collected in the 9 month period. In FY 2017, vehicle registration taxes underperformed by approximately 2% for the entire year. Currently, grants and other revenues are also under budget, but this can be attributed to a timing difference of between when work is performed and when the grantee is billed. FY2018 Budget and estimates of all revenues are in Table 3.

**Expenditures:** At March 31, 2018 the reported expenditures of \$55.6 million represent 54.1% of the Adopted Budget. The majority of the expenditures correspond to the DOLRT project. Expenditures for Transit Service are currently over budget, due to the need for the Budget Amendments outlined above. Vehicle Purchases, which are behind budget to date, are expected to reach the full budget amount, with the recent arrival of Chapel Hill Transit buses (received in April and May, 2018). For more information by Program, see Table 4, and Attachment A.
