

2050 Metropolitan Transportation Plan (MTP)

Preferred Option – *Compilation of Comments*

09/19/21

Dear Mr. Henry

Thank you for the opportunity to comment on the 2050 MTP.

As a Hillsborough resident I am concerned about the increase in daily congestion in our town, Orange County and the surrounding areas. With the pending increase in large employers in Orange/Durham/Wake (RTP) counties it is critical that these metropolitan areas work together to address transportation needs and demands. Regardless of the listed goals and measures, without a comprehensive approach to transportation planning, problems in any goal area will persist and possibly worsen if unilateral metro-area planning is the primary approach.

My household is supportive of any and all goals to increase non-car modes of transportation that allow for the greatest number of area residents to find at least one mode that best suits their needs, including accessibility and cost. My household makes use of daily express bus service from downtown Hillsborough to Chapel Hill. This option should be seen as a primary approach across all communities, given that rail service seems to be an unlikely option in the near or distant future. My last comment, where is the Hillsborough Amtrak train station in the plan? The 2045 plan presented the station as being completed in 2020!

Respectfully submitted,

Will Lang

I like that the preferred option de-emphasizes highway widening... we have enough concrete and asphalt!

The one glaring deficit is rail... whether it be light rail, trams/trolleys, existing rail, heavy rail, elevated/ and or monorail, double tracking the NCRR, re-opening abandoned rail corridors, ALL should be explored and exploited.

Tad DeBerry

Hi Andrew,

Thanks so much for your work on this. I read through the preferred option and I have just a few comments:

1. I am absolutely thrilled with the inclusion of certain items:

- The two-way conversion of the downtown loop
- The downtown stretch of 147 converted into a boulevard

- The inclusion of bike boulevards
- The focus on sidewalk additions/repairs

I want to reiterate my support for keeping those items in the final plan. They have the potential to fundamentally change Durham for the better from a prosperity lens, and equity lens, and a sense of place for all lens.

2. For the two-way conversion of the downtown loop and the 147 boulevard conversion, there is no mention that I see of a timetable for that. There is not even a priority ranking for those projects. I would want to see that in the final plan and I would advocate for those two being at the top of the list of the expensive projects. Please do not widen the southern portion of 147 or really any widening projects before those. Even other bike/ped projects should occur after those two because they will help create a great node for a bike/ped network to radiate out from!

3. On a smaller scale, I would really like to see Chapel Hill Rd in Durham on the list of projects in terms of "modernization". Streets have the ability to cultivate great places if pedestrians are given priority. The stretch of Chapel Hill Rd between West Lakewood and Bivins has the potential to be one of the best village centers in Durham outside of downtown, but before that can happen, that stretch needs "modernization", specifically:

- A road diet - lanes are too wide
- Conversion of gigantic shoulder areas to bike lanes, parklets, on-street parking, and bulb outs for pedestrians at intersections.
- Street trees to give the sense that this is a slower street for cars.
- Lower speed limits to reflect the design changes outlined above

Thank you for considering my input. On point number 3, I have started a walkability study of that corridor and would be happy to talk further about it.

Best,
Dave

Hello,

I am writing in to say I am in full support of the Preferred Option and interested in deemphasizing highway widenings and encourage more support for public transportation as well as bicycle and pedestrian accommodation. The commuter rail is my biggest priority and hope that it receives the funding and schedule for building in the very near future.

Thank you,
Natalie
