### **SPOT 6 Pre-Submittal Process (10 minutes)** **Aaron Cain, LPA Staff**

NCDOT is offering to review through a pre-submittal process potential interchange, intersection, and superstreet projects prior to formal submission into the SPOT 6 cycle. This will provide an opportunity for MPOs to receive information on the relative potential for success of projects before they are formally submitted to SPOT. Each MPO may submit up to ten projects.

The deadline for submittals to NCDOT is January 18, 2019. If you have any candidate projects, please discuss them with Aaron Cain of LPA Staff, and submit nominations by January 11, 2019. Any candidate projects that could not be considered "operational improvements" must be shown in the 2045 Metropolitan Improvement Plan (MTP). Also, NCDOT has requested that MPOs *not* submit projects for pre-submittal review that were submitted for SPOT 5; pre-submittal projects should be new projects.

Additional information on the pre-submittal process is attached.

**TC Action:** Submit candidate projects to Aaron Cain by January 11, 2019.
