2050 MTP -- Deficiency and Needs Analysis (25 minutes)

Andy Henry, LPA Staff

The Deficiency and Needs Analysis is the next step in the development of the 2050 MTP. It presents regional, corridor and roadway level analysis to identify future transportation deficiencies by modeling a 2016 transportation network with 2050 population and employment, which is sometimes known as a future no-build scenario. The attached presentation helps people understand the various data and graphical tools. The detailed data, graphics, and interactive maps are available on the 2050 MTP Deficiency Analysis web page:
