The DCHC MPO has recently completed the 2019 Mobility Report Card (MRC), a comprehensive assessment of multimodal travel trends and system performance addressing vehicular level of service, travel time reliability, bicycle and pedestrian travel, transit, and safety. The MRC is part of the MPO's Congestion Management Process (CMP), which is a FAST Act requirement. Specifically, the MRC supports the following components of the CMP: development of multimodal performance measures, analysis of data, and quantification/summarization of system performance. The presentation slides and the executive summary for the Mobility Report Card are attached. The main report along with the technical appendix can be downloaded from the DCHC MPO website (<http://www.dchcmpo.org/programs/cmp/default.asp#tabs2>).
